STAT

[Redacted]
Logistics Officer - South Building
2430 E Street, NW
Washington, D. C.

Dear Mr. Dubill:

In order for the following areas to be exempted from the Emergency Building Temperature Restrictions Regulations, your agency must submit a written justification. The regulations generally require that thermostats be set no lower than 78°F for cooling, no higher than 65°F for heating, and no higher than 105°F for domestic hot water.

STAT

[Redacted] - Rooms BW109, 1509, 2N10, 3N10, 4N10
South Building - Rooms 152, 4100, Entire basement
East Building - Rooms 2, 3, 10
Central Building - Rooms 103, 104, Entire basement

Your justification must be detailed containing the type of machinery located in these areas, the manufacturer's temperature specifications, and other pertinent information.

If there are other areas not noted in this memorandum that require an exemption please submit a justification. This is a requirement by the Department of Energy. Attached is a booklet explaining the regulations and the tenant agency's responsibilities. Please read and comply with the regulations. Please submit all justifications by October 19, 1979, to this office.
